

NGUYEN HOANG PHUC

INFORMATION SECURITY / CYBER SECURITY

Vietnam | nhpntd@gmail.com | github.com/hphuc032
linkedin.com/in/nguyen-phuc-71217332a

Hands-on work across network analysis, vulnerability assessment, application and API security, backend development, and infrastructure labs. I document security projects, technical learning, and the systems I study through carwyn.sec.

TECHNICAL CAPABILITIES

Network Security Wireshark, Nmap, TCP/IP analysis, DNS, HTTP / HTTPS traffic analysis, network enumeration
Vulnerability Assessment / Security Testing Kali Linux, Metasploit, OWASP ZAP, service enumeration, vulnerability identification and assessment
Application / API Security FastAPI, Keycloak, Kong, JWT, OAuth2, OpenID Connect (OIDC), RBAC, Docker, PostgreSQL, authentication / authorization testing
Backend / Infrastructure Java, Spring Boot, Servlet, JSP / JSTL, JPA, JDBC, MySQL, Python, SQL, Ubuntu, FortiGate, Docker

SELECTED PROJECTS

SECURE API GATEWAY

A project focused on API authentication and authorization. Used FastAPI, PostgreSQL, Keycloak, Kong, Docker, JWT, OAuth2, OpenID Connect, and RBAC.

VULNERABILITY ASSESSMENT

Security assessment practice in controlled educational labs, including service enumeration and vulnerability identification and assessment with Kali Linux, Nmap, Metasploit, and OWASP ZAP.

NETWORK TRAFFIC ANALYSIS

Hands-on packet and protocol analysis with Wireshark, covering TCP/IP, DNS, and HTTP / HTTPS traffic behavior.

EXPERIENCE

UAT TESTER - WEB & MOBILE APPLICATIONS AUG 2026 - PRESENT

Conduct UAT and regression testing, create and execute test scenarios from business requirements, report and track defects, and verify bug fixes.

FLOWER ARRANGEMENT - MEMORY FLOWER PHU NHUAN

Flower-arrangement work at Memory Flower in Phu Nhuan.

ACHIEVEMENTS & LEARNING

Core Team - AWS Student Builder Group HCMUTE

Top 4 - HCMUTE CTF 2025

Cybersecurity Student Competition 2025 - Qualifying Round Participant

CEH - In Progress Currently studying Certified Ethical Hacker material.
